

West Kingdom Needleworkers Guild Service Project 2009
Scissor Case for Estrella War

These items will be presented to the King & Queen for use in gift baskets at the Estrella War in February 2009. Since we don't know for sure how many kingdoms will be at this event, we will **not** require a particular design (i.e. Queen's Rose) or color scheme to be used. We **would** like to encourage you to use silver in your project in some way (buttons or thread or beads or fabric), in commemoration of next year being Estrella's 25th "silver" anniversary.

So, how you want to stitch this project is totally up to you. You can do counted work, surface embroidery, metal thread, canvas work, etc – your choice of design is fairly open, basically any stitch or style as long as it is period.

You will need fabric that is 5 ½ x 5 ½ inches square for the scissor case. This includes a one half inch seam allowance on all four sides. *It is important that you do not alter the size of the scissor case*, or it will not fit the pairs of scissors that have been purchased by the Guild for this project.

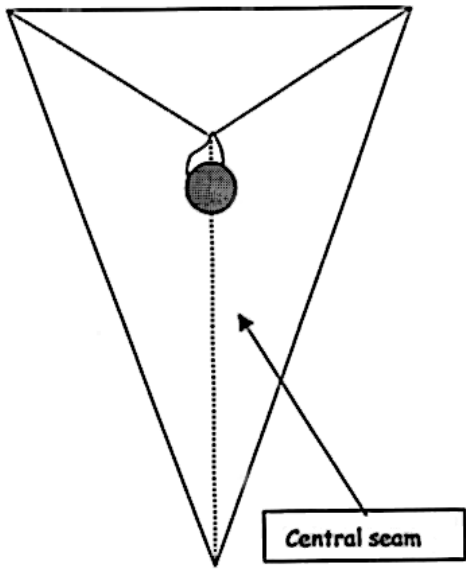

For the scissor fob, you will need fabric that is about 3 x 3 inches square and would include a one half inch seam allowance on all four sides. You will also need fabric to line the scissor case and scissor fob.

The enclosed pictures show ribbons attaching the fob to the scissor handles. What you use is up to you. You can use ribbons, braid etc. whatever suits your fancy. When you have completed your project & returned it to the Guild Minister, the fob will be attached to a pair of scissors.

The deadline for this project is 12th Night 2009. You can either arrange to meet Felicia at an event to hand over your completed project, or mail it to her:

Felicia Amondesham, c/o Amy Bodine, 1713 Gladstone Avenue, San Jose, CA 95124. If you have any questions, you may contact me at (408) 705-3290 or prplelady@comcast.net .

pattern for scissors case is shown below at actual size
